Lasertrolysis UK

At Lasertrolysis UK, we combine advanced technology with clinical expertise to deliver safe, effective, and results-driven aesthetic treatments

From your initial consultation through to your treatment journey, our focus is on delivering exceptional care, outstanding service, and natural-looking results. By combining expert knowledge with innovative aesthetic technology, we help our clients look and feel their best at every stage of life.

We offer a carefully selected range of medical aesthetic treatments designed to deliver visible, long-lasting results while maintaining the highest standards of care and professionalism.

Technology You Can Trust
Our clinic invests in industry-leading technology to ensure every treatment is performed with precision, comfort, and optimal effectiveness.

DERMA-V

Using advanced laser technology, Derma V precisely targets pigmentation and vascular concerns such as sun damage, age spots, redness, rosacea, birth marks, actinic keratosis, melasma and thread veins (blue and red) on the face and legs. Usually 1-4 treatments are required.

15 minute treatment	£150
30 minute treatment	£300

NOON CHEMICAL MEDICAL PEELS

Formulated to target concerns such as acne, pigmentation, sun damage, and skin ageing with minimal downtime.

1 peel	£97
Course of 6	£524

LIPOFIRM PRO

Combines advanced body contouring and skin tightening technologies to help reshape and tone targeted areas.

Free consultation	1 treatment	Course of 8
2 areas	£110	£800
4 areas	£165	£1188
6 areas	£206	£1483

LIGHTSHEER DIODE LASER

Recognised worldwide as a gold-standard system for safe and effective permanent hair reduction. Renowned for its effectiveness and high success rate approximately 6 treatments are required to achieve significant permanent hair reduction in a treatment area.
